

Sander and Sandpaper Storage

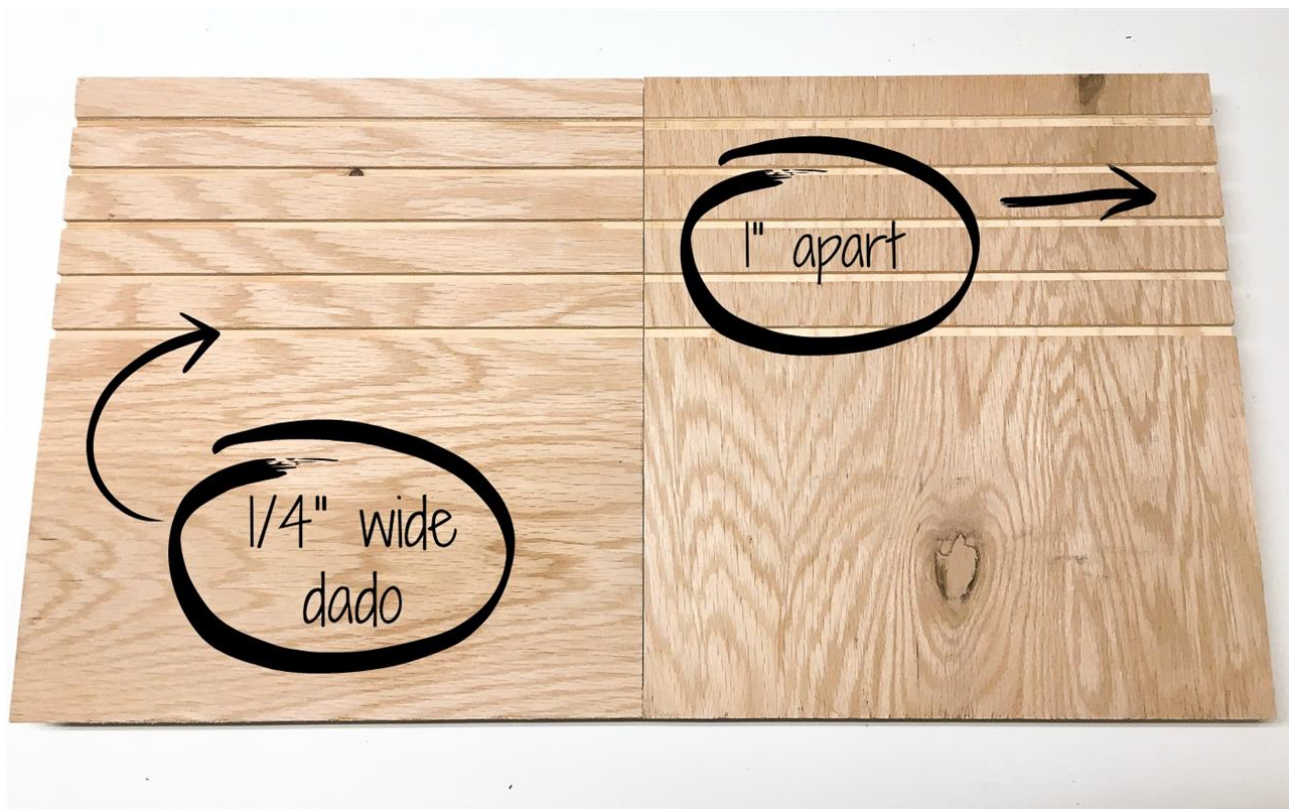

★★★★☆ Read Reviews (2)

Directions

Follow the steps below to complete this project.

1. Cut dados for shelves

Cut five 1/4" dados, 1" apart, on the top half of the vertical supports. Two of the vertical supports should have dados on both sides.

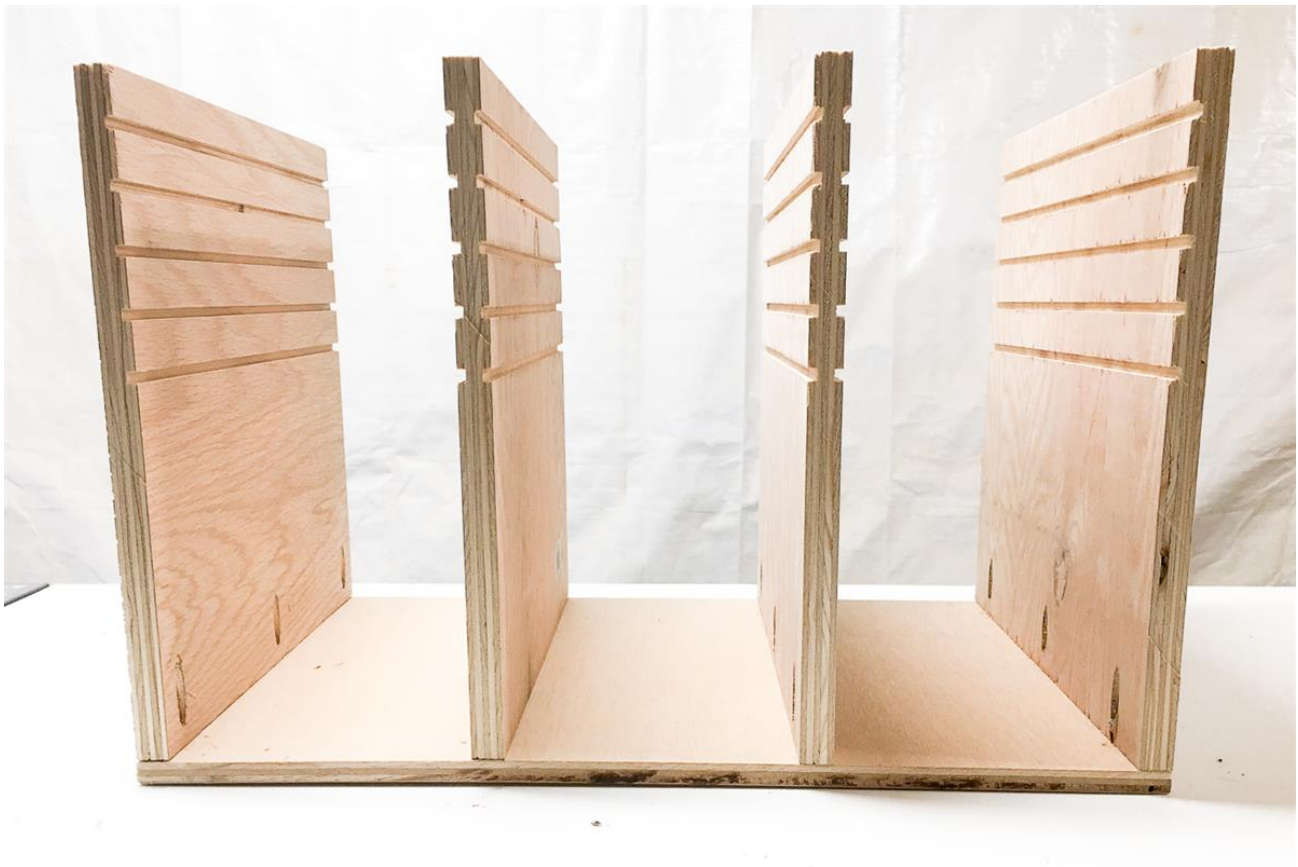

2. Drill pocket holes

Drill pocket holes at the bottom of each vertical support on the same side as the dados.

3. Attach vertical supports to bottom

Attach the vertical supports to the bottom piece with 1 1/4" screws. The vertical supports should be spaced 6 1/4" apart.

4. Nail top in place

Nail the top of the box in place through the vertical supports.

5. Nail back in place

Nail the back of the box in place.

6. Slide shelves in place

Slide each of the 1/4" plywood shelves in place. If they have trouble fitting, sand the top and bottom until it moves freely.

7. Label sandpaper grits

Don't forget to label each shelf with the grit number. Now you can easily see when you're running low on your favorites!

Tools Used:

- (1) Kreg Pocket-Hole Jig
- (1) Kreg Workbench
- (1) Ryobi Drill (cordless)
- (1) Ryobi Nail Gun
- (1) Ryobi Sander
- (1) Stanley Square
- (1) Ryobi Table Saw
- (1) Stanley Tape Measure

Materials Required:

Wood Products:

- (1) 3/4" Thick, Half Sheet, Plywood
- (1) 1/4" Thick, Half Sheet, Plywood

Hardware/Supplies:

- (1) 1 1/4" pocket hole screws
- (1) brad nails

Parts/Cut List:

- (2) top and bottom, 3/4" x 21 3/4" x 13"
- (4) vertical supports, 3/4" x 13 3/4" x 13"
- (1) back, 1/4" x 21 3/4" x 15 1/4"
- (15) shelves, 1/4" x 6 5/8" x 13"
